

## Certified Education Provider

December 17, 2015

Dear parents,

Kaplan is one of the world's leaders in test preparation and has more than 75 years of experience in preparing students for standardized tests such as TOEFL, IELTS, GMAT, GRE, SAT and USMLE. Kaplan invests millions of dollars each year to develop its test preparation courses and supplementary software to enhance Kaplan students' preparation for the various standardized tests. With over 200 locations worldwide, Kaplan has helped millions of students all over the world to reach their educational goals. Kaplan has been operating in Thailand since 1997 and is managed by Star E.D.U. Company Limited, which is the exclusive certified provider of Kaplan courses in Thailand. Currently we have 2 centers located at Siam Square and Central Lardprao.

We have had the privilege of working with many international school students who have enrolled with Kaplan to prepare for the SAT exams. In order to better serve Thai-Chinese International School students, we will be glad to offer our after school course at your campus.

Our new SAT program is well structured and systematic. It offers students realistic practice, as well as the ability to build their endurance, improve their pacing and most importantly increase their scores. Our teachers have great academic credentials with many years of test preparation teaching experience. Students also have the opportunity to connect to our proprietary online access program. The details for Kaplan's new SAT program are in separate documents attached with this package.

Thank you for your time and kind consideration of our services.

Sincerely,

A handwritten signature in black ink that reads "Chakchai S." with a period at the end.

Chakchai Sritrai  
Marketing Manager

## Certified Education Provider

Computer Lab at Siam Square Location

### **Facilities:**

Studying in class alone may not be adequate to achieve higher scores. Kaplan Educational Centers provide various facilities to help students throughout the test preparation process even after students have completed their live classes. We offer 6 months' access to our facilities for students who enroll in our TOEFL, IELTS, GMAT, GRE, and SAT courses.

### **Computer Lab for Practice Tests:**

Get the most realistic practice tests possible with Kaplan's computer lab. Only Kaplan students get to take computer-adaptive practice tests for the GMAT and GRE, and internet-based tests for the TOEFL iBT to experience simulated testing format and environment firsthand. Know what to expect on the Test Day so you'll score higher on the real test. Take Kaplan Practice Tests and:

- Experience a simulated testing environment firsthand, so you know what to expect on the Test Day
- Master the format, allowing you to focus on performing your best on the exam
- Get the practice necessary to build your stamina for the computer-based exam

By Test Day, students' confidence will be at an all-time high—and their scores will follow.

### **Lesson on Demand for reviewing lessons:**

Lesson on Demand is software that allows Kaplan students to review lessons via the computer. Easy-to-use features make Lesson on Demand the best way to gain greater understanding about the test acing concepts outside Kaplan's live classes. Students can pause whenever they want to take notes, or even skip lessons you already knew. They can also choose to watch lessons from various teachers on the same topic. Lesson on Demand is available for TOEFL, IELTS, GMAT, GRE, and SAT classes.

### **Self Study Materials for more practice:**

For IELTS and SAT courses, Kaplan also provides self-study materials that students may use within our centers for additional practice. With answer keys and explanations, students are able to understand the rationale for each answer and prevent mistakes. Kaplan also provides practice CDs and CD players for the IELTS listening section.

### **Library:**

Because most standardized tests involve improving a student's English language proficiency, Kaplan provides various types of materials that students may take home for up to 7 days. Materials available include selected movie DVDs, audio CDs, practice test books, and English literature books designed to help students improve their English language proficiency and improve their test scores. Kaplan also provides a library for students to study within our centers.

## Certified Education Provider

Hundreds of students joined Our SAT programs each year. The list below shows some of the international schools that Kaplan's SAT students attended.

1. American Embassy School
2. Bangkok Christian International School (BCIS)
3. Bangkok Pattana School
4. British International School
