Dear TCIS Family,

Our 2025 Songkran Festival on campus was a truly memorable celebration of Thai culture, tradition, and community spirit. The event brought students, parents, and staff together in a meaningful way, reminding us of the beauty and importance of honoring the cultural roots that are so central to our identity as a Thai-Chinese International School. A heartfelt thank you to Kru Rung and the entire Thai Department for their tireless efforts in organizing such a vibrant and meaningful event. From the stunning student performances to the respectful wai ceremony and fun water activities, every detail was beautifully executed. A special thank you as well to Mr. Lu, TCIS Foundation Executive Board Member, for his presence, continued support, and touching speech. His

words reminded us of the strong foundation and bright future we share as a community.

Looking ahead, we are pleased to announce that TCIS will host the International Baccalaureate Diploma Program (IPDP) Verification Visit on May 1 and May 2. This visit is a vital part of maintaining the highest standards in teacher quality and school improvement. We are proud of the progress we've made and confident that the visiting team will see the dedication, professionalism, and care that define TCIS. As part of our preparations for the official launch of the IB Diploma Programme, I will be participating in formal training for the Extended Essay component of the IBDP. This advanced training will further support our students as they learn to research, write, and think critically at an international level. We are committed to ensuring that the IB experience at TCIS is both rigorous and deeply supportive.

We are also thrilled to share that we received over 100 submissions for our 30th Anniversary Logo Design Contest! The creativity and enthusiasm shown by our students, staff, alumni, and parents have been truly inspiring. Each design reflects the pride, history, and excitement we feel as we prepare to celebrate this important milestone in TCIS history. We look forward to sharing the winning design in the weeks ahead.

Thank you, as always, for your continued support and involvement. Together, we are building a school community that honors tradition, pursues excellence, and embraces the future. Regards,

Dr. Michael Purser

Dear TCIS Family,

Songkran Celebration

On behalf of the Thai Department, I would like to express my deepest gratitude to everyone who helped make this year's Songkran celebration such a meaningful and joyful event.

To our Thai Department, your hard work, dedication, and passion made this celebration come to life. From the beautiful performances to the thoughtful activities and careful planning, every detail reflected your love for Thai culture and your commitment to our school community. I am truly proud and honored to work alongside such talented and devoted educators.

To our wonderful parents—thank you so much for being part of this special day. Your presence and support mean so much to us. It is always a joy to see our community come together to share and honor Thai traditions.

I would also like to extend my appreciation to teachers and everyone who worked behind the scenes. Your teamwork and cooperation helped everything run smoothly, even when the weather gave us a few surprises.

Thank you once again to everyone who contributed to the success of our Songkran celebration. It is moments like these that remind us of the strength and warmth of our TCIS family. <u>Songkran Photos</u>

HER Club: HPV Risks & Prevention

The TCIS HER Club hosts an "HPV Risks & Prevention" session in collaboration with HDmall.

📢 TCIS Parents Announcement 📢

If your child is 9 years old or older, they are due for the HPV vaccine! Join us to:

- Learn why early protection is crucial at our exclusive talk with **Dr. Kulthep Rattanakovit**, Chief Medical Officer from HDmall Thailand's Largest Healthcare Marketplace.
- Receive vaccination discounts and more from 2,500 clinics and hospitals!

Time and Date Information:

- Date: Tuesday, April 22nd, 2025
- 🕐 Time: 8:00am 9:00am

Location: 360 Auditorium, Thai-Chinese International School

Dear TCIS Families,

I would like to start off with wishing all the TCIS families a happy and prosperous Thai New Year. We hope you enjoy the Songkran holidays with your families and friends. We also wish you safe travels during this holiday time.

This is a special time in Thailand celebrating the Thai New Year and our Thai Department made it special at TCIS. They coordinated an incredible show that displayed our students' talents and included amazing performances. Well done!

. We recently had a grade 9 panel of students that spoke to the grade 8 students on what to expect with moving into high school. We also have a bonding trip for all grade 8

and 9 students to attend at Top Golf so they can connect and build relationships for the transition to high school. Please make sure your grade child has submitted their forms and payment to Ms. Catt or Ms. Ooy.

Our high school clubs are working to raise donations to help those who were affected by the recent earthquake. If you can provide any support it will be greatly appreciated.

Happy Songkran! Kevin Curran | Head of High School

High School Secretary: Ms. Catt

Email: <u>cattleya@tcis.ac.th</u>

Phone 02-751-1201 ext. 208

Dr. Richard's Message

Dear Middle School Families,

Let me begin by wishing you all a safe and joyous Songkran Break! Breaks are the perfect time for students to spend time with family and joining in fun activities. I look forward to hearing all of the wonderful stories when we return to school on Monday April 21 to finish quarter 4 and the rest of this academic year!

Course Selections

Grades 5, 6, and 8 have completed their course selections for the next academic year. Grade 7 will complete theirs on April 24 during advisory. This process helps students learn more about the upcoming year. It is not a final determination for their classes, but it helps us find out about interests and plan for how many sections to open next year. Within the

first 2 weeks of the next academic year, students may request to change courses.

Grade 8/9 Bonding

On April 03, Grade 8 students had a Q&A session with a panel of Grade 9 students. Each Grade 9 student offered a unique perspective of high school and shared their personal opinions. This session helps Grade 8 answer questions and concerns they may currently have. It also provides them tips on how to start their high school successfully.

TopGolf Bonding Trip

On Monday April 28, Grade 8 students will travel with Grade 9 students for our annual bonding trip. Based on a survey, students selected the popular destination TopGolf. Their trip includes buffet food and drinks, games, team-building, and the chance to win prizes. Mr. Kevin, their future Head of School in highschool, counselors, and advisory teachers will accompany them. This is an excellent opportunity for students to create relationships with high schoolers, learn more about high school in a social situation, and end the year. I look forward to sharing the pictures and video with you!

End of the Quarter and Year

The end of quarter 4 and the school year is quickly approaching. Students will be taking many tests including: Chinese TOCFL, NWEA MAP, WIDA, and more. They will also be completing summative assessments in their classes, showcasing projects, presenting, and performing. It is an amazing time of year, but it is also a stressful time.

If you notice any changes or concerns, please let our counselors know. They work very hard throughout the day and during advisory meetings with students. When we find an issue, we handle it right away. The team is dedicated to ensure positive SEL is paramount at our school. It is also something that must have attention consistently.

Thank you for your support and please review all the amazing work below!

Dr. Richard E. Poulin III Head of Middle School richard.poulin@tcis.ac.th

Secretary: Ms. Ooy

Email: pongvilai@tcis.ac.th

Phone: 02-751-1201 ext. 361

Congratulations to Ms. Rachel!

Ms. Rachel gave birth to a beautiful girl, Khaya Grace, on April 01. Her maternity has begun, and Ms. Brianna will be teaching her classes for the remainder of the year.

Ms. Brianna has co-taught many of her classes before Ms. Rachel's maternity leave began and already knows your children very well. Ms. Brianna is an experienced teacher and has completed training with TCIS since February. We look forward to seeing Baby Khaya soon!

MS Speech Competition

Congratulations to our Winners Pob G7 (1st place), Gawin G8 (2nd place), and Jasmine G8/Prom G7 (3rd place). A special thank you to our amazing MCs Namhomm (G7) and Phat (G6)

MS Band

Checkout our MS students band Children of Bodom

Watch The Video

Congratulations to Prompt on yet another achievement for his Piano talent!

Prompt was awarded the Highest Trophy and Certificate (Platinum Award; First Class Honors with Distinction) in Burgmuller Artist Piano Competition Category - The 4th BRAVO Young Musician Festival on March 22nd, 2025 at Princess Galyani Vadhana institute of Music.

Preparing for Next Year

Grades 5, 6, and 8 have completed their course selection for the next academic year. We also help a panel discussion for Grade 8 students to ask questions to Grade 9 students.

Welcome To Our Newest Students

Please give a warm welcome to our new middle school students: Daniel (G6), Nippon (G5), and Porsche (G7). Our TCIS ambassadors Dan, Pandin, and Prize helped them during their first day of school.

Grade 7 and 8 Strings Concert

Grade 7 and 8 performed in front of the middle and high school. Their wonderful performance received a round of applause and their improvement was wonderful to hear!

Songkran

Songkran is a favorite holiday across the school. Be sure to watch the <u>live stream video</u> of all the performances.

Songkran

Songkran

Dear TCIS Family,

Grade 4 Transition Parent Coffee Morning

Last week, **Dr. Richard** and I hosted a parent coffee morning to discuss grade 4 students' transition into grade 5 and middle school. We have many grade 4 parents join us. Thank you to Kru Rung and Mr. Tony for providing translations for the meeting. Also, Ms. Pym provided great assistance in sending a summary of the meeting (in three languages!) to parents who were unable to attend. Grade 4 students will visit grade 5 classrooms beginning Tuesday, April 22nd, 2025 to provide them a taste of middle school life. <u>Grade 4 Parent Coffee Morning Photos</u>

TCIS Songkran Celebration

Thank you to everyone who helped make this year's Songkran celebration such a beautiful and memorable event.

First and foremost, I would like to recognize **Kru Rung** and the entire **Thai Department** for their outstanding work. We are incredibly fortunate to have such a dedicated and selfless team leading our Thai program.

I would also like to thank our wonderful **parents** for joining us and being such an important part of the celebration. Their presence helped make this special Thai cultural event even more meaningful. It was heartwarming to see your smiling faces throughout the day as you shared in the joy and spirit of Songkran with your children and the entire school community.

My sincere gratitude also goes out to all of our **teachers**, **teacher assistants**, **and support staff** whose cooperation and teamwork helped the event run so smoothly. Whether behind the scenes or alongside the students, your contributions were essential in creating such a joyful and seamless experience. <u>Songkran Photos</u>

ECE Earth Day Event - Friday, April 25th, 2025 - ECE Parents are Invited

I am incredibly excited to announce our upcoming ECE Earth Day 2025: Growing Together event that will take place from 7:30am to 8:50am, on Friday, April 25th, 2025. This will be a fun-filled morning of hands-on activities that promote environmental awareness and responsible global citizenship. While staying in their grade-level groups, parents and students will rotate between several fun activities:

- 🌱 Seed Planting
- 🛟 Recycle Art & Craft Project
- 🐾 Petting Zoo (small animals)

ECE Earth Day 2025: Growing Together Letter ECE Earth Day Poster

Non-Uniform Day - Friday, April 25th, 2025

Friday, April 25th, 2025 is a non-uniform day, and we encourage students to dress up in Earth Day, nature, or animal-themed clothes. <u>Earth Day Non-Uniform Day Poster</u>

Important Reminders

Please read the important reminders about no food deliveries and acceptable football-related footwear. <u>Important Reminders</u>

Kind regards,

Dr. James james.cooke@tcis.ac.th

ECE Earth Day Event 2025

Dear ECE Parents,

We are excited to invite you to participate in our ECE Earth Day Event 2025: "Growing Together" from 7:30am to 8:50am, on Friday, April 25th, 2025.

Join us in the TCIS ECE area for a fun-filled morning of hands-on activities that promote environmental awareness and responsible global citizenship. While staying in their grade-level groups, parents and students will rotate between several fun activities:

A rotation schedule will be provided to parents.

To add to the fun, this will also be a non-uniform day, and we encourage students to dress up in **Earth Day, nature,** or **animal-themed clothes.**

Parents are **welcome and encouraged to participate** in these activities alongside their children, making it a meaningful and memorable experience for all.

We look forward to growing and learning together with you!

Best regards,

ECE Teachers

Dr. James's Poster: ECE Earth Day Event: ECE Parents Invited

NO FOOD DELIVERIES TO CAMPUS

- IF A STUDENT HAS A BIRTHDAY, THEN THE CUPCAKES OR FOOD MUST ARRIVE WITH THE STUDENT IN THE MORNING.
- DELIVERIES WILL NOT BE ACCEPTED AT THE SCHOOL.
- TEACHERS AND STAFF ARE NOT PERMITTED TO ACCEPT ANY DELIVERIES ON BEHALF OF PARENTS OR STUDENTS DURING THE SCHOOL DAY.

Footwear Reminders

 FOOTBALL CLEATS HARD TRADITIONAL FOOTBALL CLEATS ARE NOT SAFE TO WEAR DURING THE SCHOOL DAY AND ARE NOT ALLOWED. THEY ARE ONLY ALLOWED AFTER SCHOOL DURING PRACTICE OR DURING AFTER SCHOOL GAMES. STUDENTS ARE NOT ALLOWED TO WEAR THEM DURING RECESS OR BREAK TIMES.
 <u>TURF CLEATS</u> TURF CLEATS ARE SAFE FOR OUR STUDENTS TO WEAR, AS THEY ARE SOFT AND PROVIDE EXTRA GRIP. THEY CAN BE WORN ALL DAY AND DO NOT NEED TO BE CHANGED DURING THE DAY. THEY CAN BE WORN DURING RECESS, BREAK TIMES, AND DURING AFTER SCHOOL PRACTICE.

Congratulation to Putter

Putter took part in the 3x3 Bangkok Ice Hockey Festival 2025, held on April 5–6, where he competed in the "U10 Recreational Division." His team earned second place and was awarded the silver medal for their performance. Furthermore, Putter was recognized as the Most Valuable Player (MVP) for the match between the Young Ducks and East Kingston.

Our Schoolwide Learning Outcomes are part of everything we do at TCIS

ENGLISH

Mr. Snow | Grade 5-6A

Dear Parents,

Time certainly does fly by when you're having fun! Quarter 3 has ended and Grades 5 & 6 are now in the final stretch of the school year. I want to congratulate all of the students that participated in this year's English speech competition. We had an amazing performance from our Grade 5 & 6 students and I couldn't be more proud of them! They all worked extremely hard and put so much effort into their speeches. Additionally, I've noticed that both grades have made strong progress towards improving their English writing skills this past quarter. The persuasive writing essays from Quarter 3 displayed immense improvement in students' grammar, organization, and vocabulary. Keep up the great work!

For Quarter 4 our next topics will be centered on fantasy novels in Grade 6 and mythology in Grade 5. We have an exciting final project coming up that I know all of the students are very excited about. As always, please keep encouraging your child to read at home and I strongly suggest the use of websites such as <u>Read Theory</u> and <u>No Red Ink</u> as supplemental resources to help students to continue to strengthen their English language skills. Our weekly reading log homework will begin again starting over the Songkran holiday. The next reading log is due on April 21st, the day we return from break. I wish all of you a relaxing and wonderful Songkran holiday filled with happiness and time spent with family and friends!

Ms. Brianna | Grade 6B & Grade 8

Dear Parents,

I hope this message finds you well! I wanted to take a moment to formally introduce myself. As many of you know, I've stepped in to teach ELA while Ms. Rachel is away on maternity leave. She recently welcomed an *adorable baby girl* into the world—such an exciting time for her and her family!

Before her departure, I had the pleasure of working alongside Ms. Rachel in her classroom for about a month and a half. During that time, I was able to build strong relationships with the students, get to know their routines, and share in the positive and supportive classroom environment she created. I'm truly happy to be teaching such a great group of kids!

6th Grade: Social Issues Book Clubs (Unit 4)

Our sixth graders are diving into their *Social Issues Book Club* unit. Last week, students were grouped based on interest and checked out their selected novels from the library. We kicked things off by reading the short story *"Raymond's Run"* and analyzing the social issues presented in the text.

This week, students began reading the first few chapters of their book club selections alongside their peers. Through small group and whole-class discussions, they've started identifying emerging themes and discussing character traits in depth. I'm so impressed with their thoughtful insights and engagement. I can't wait to continue exploring these powerful texts together after the break!

🗣 8th Grade: Essential Research Skills & TED Talks

Our eighth graders have begun their *Essential Research Skills* unit, and I must say—it's already shaping up to be something special! Students are selecting topics they're passionate about, writing informative essays, creating visual aids, and eventually delivering their own short TED Talk-style presentations.

So far, we've explored what makes an effective TED Talk, watched and analyzed an example as a class, chosen our individual topics, and started researching using credible sources. I'm genuinely looking forward to seeing the final essays and presentations—they're bound to be both informative and inspiring!

Wishing You a Wonderful Songkran Break!

As we head into Songkran Break next week, I want to wish all of our students and families a *fun, safe, restful, and joyful holiday*. I hope you enjoy time with loved ones, recharge, and return refreshed and ready to jump back into learning!

Warmly, Ms. Brianna (Ms. B)

Dear Parents and Guardians,

The final quarter of the school year has officially begun! Last week, we launched into a rich and engaging unit that includes reading the acclaimed novel The Giver by Lois Lowry, exploring a variety of poems, and deepening our understanding of figures of speech. These are designed not only to improve language skills but also to encourage critical thinking, empathy, and personal reflection in our students.

As we progress through these lessons, it's important to recognize that English is a subject built on continuity. Skills and concepts introduced earlier in the year are now being expanded and applied in more complex ways. Because of this, students who are still working to master previous material are encouraged to reach out to their classmates for support. Collaborative learning—where students explain, question, and problem-solve together—is one of the most effective ways to consolidate understanding and build confidence.

In fact, a recent study titled "Pedagogical Approach of Grade 7 Teachers in Teaching the Learning Competency of Integers" highlights the importance of collaborative learning in mastering complex subjects. The research emphasizes that group activities, when effectively implemented, can significantly enhance students' understanding and retention of challenging concepts. In our English classes, we incorporate group work to facilitate peer-to-peer learning, allowing students to explore diverse perspectives and develop critical thinking skills. This approach aligns with the study's findings, underscoring the value of collaborative learning environments in fostering academic growth.

To support your child's continued success, I encourage you to discuss the importance of active participation and adherence to class instructions during group activities and assignments. By analyzing their approach to these tasks and reflecting on their contributions, students can identify areas for improvement and develop more effective learning strategies. Your support in reinforcing these habits at home will be instrumental in helping your child reach their full potential in English classes now, and in the future.

Thank you for your ongoing support and involvement in your child's learning journey.

Sincerely, Mr. D (Mr. Brian)

Mr. Douglas | ELL Grade 5-6

Dear Parents,

We are so proud of our ELL students for their amazing progress this quarter! Throughout Quarter 3, they have worked hard to build their vocabulary, strengthen their grammar, and dive deeper into English language concepts. From mastering tricky verb tenses to expanding sentence structures and learning new academic words, their dedication has truly paid off. It's been wonderful to see their confidence grow as they apply what they've learned in their writing, speaking, and classroom discussions. Keep up the great work; your effort and enthusiasm are inspiring!

Mr. Scott | ELL Grade 7-8

Dear Parents,

Spring is in full swing, and our English Language Learners have been busy with exciting and meaningful learning!

This month, we've been focusing on the theme of **travel and exploration**. Students are learning how to make plans to visit new places, arrange transportation, and navigate the common challenges that can come up while traveling. Whether it's figuring out a train schedule, asking for help at an airport, or solving a lost-luggage situation, our students are building practical language skills they can use in real life.

In addition to our travel-related conversations, we've been exploring **different types of texts**—like news articles, magazine features, and informational wikis. We're learning how to understand the purpose behind each kind of writing and how to find useful information within them.

A big part of our classroom focus continues to be on having **smooth, clear conversations** and giving **confident presentations**. Every day, students are practicing how to express themselves thoughtfully and effectively in English.

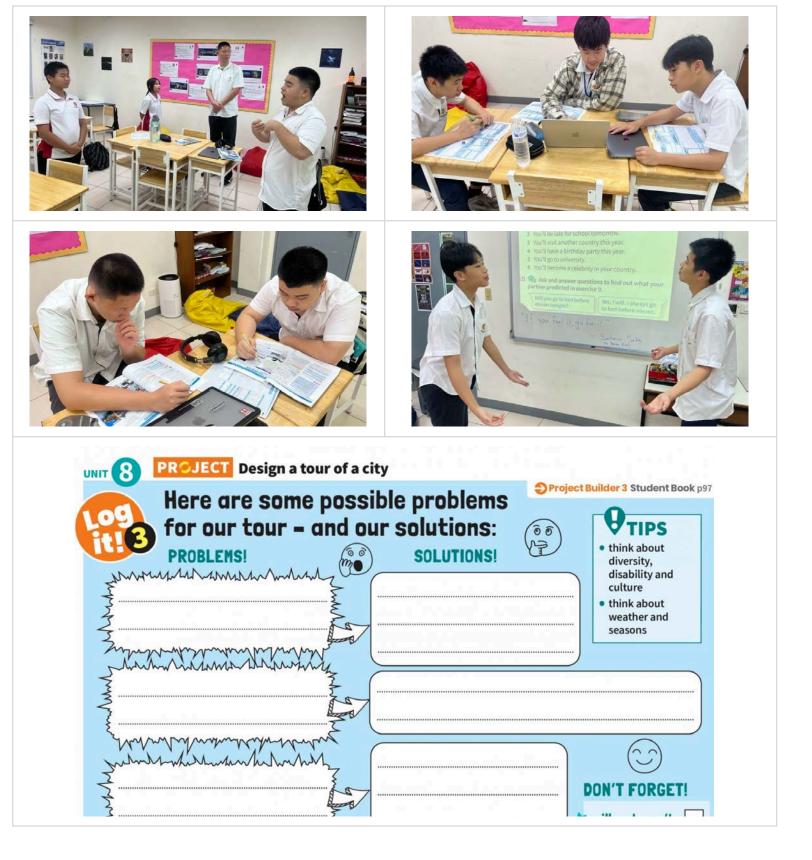

We are so proud of their hard work, growth, and curiosity. Thank you for your continued support at home!

Happy Songkran!

Mr. Scott

An Drill

MATH

Mr. Shaun | Grade 5-6

Dear Parents,

Foundational math skills in grades 5 and 6 are incredibly important because they lay the groundwork for more complex mathematical concepts and problem-solving strategies in later grades. Does your child have strong foundational math skills?

Please review their **IXL Diagnostic** score. Students scoring <u>below</u> their grade level (200's = 2nd grade, 300's = 3rd, 400's = 4th, etc) are still working to strengthen these needed skills. Here's why foundational math skills are so critical during these grades and how you can support you child:

Why Foundational Math Skills Matter:

1. Preparation for Advanced Topics:

In grades 5 and 6, students encounter foundational concepts such as fractions, decimals, ratios, and basic geometry. These topics are building blocks for higher-level math. Without a strong understanding of these concepts, students may struggle in middle school and beyond, especially with algebra and other abstract math topics.

2. Critical Thinking and Problem-Solving:

Math isn't just about numbers; it's about developing logical reasoning and problem-solving abilities. Foundational skills help students understand patterns, make connections between different concepts, and solve real-world problems, all of which are important for academic success in many subjects, not just math.

3. Consistency in Learning:

The Common Core emphasizes the importance of mastering key concepts before moving on to more advanced material. If students don't have a solid understanding of basic math principles, they'll likely face gaps in their knowledge as the content gets more advanced in middle and high school.

4. Long-Term Success:

The ability to perform well in math correlates with success in other subjects and even in future career choices. Math is crucial not only for academics but also for real-life situations—budgeting, cooking, shopping, and more—all of which require strong math skills.

How Parents Can Help Ensure Good Foundational Math Skills:

1. Practice Regularly:

Encourage daily practice of basic math facts (multiplication, division, addition, subtraction) to build fluency. This can be done through worksheets, online games, or flashcards. The more students practice, the more confident they will become in applying these skills.

2. Use Real-Life Examples:

Incorporate math into everyday activities. For example, when cooking, ask your child to double a recipe or calculate the cost of multiple items while shopping. These real-life examples help students see the practical applications of math, making it more meaningful.

3. Make Math Fun:

Engage your child with math-related games, puzzles, or apps that make learning feel less like a chore. Activities such as math board games or online interactive tools can help your child enjoy math while reinforcing their skills.

4. Encourage Conceptual Understanding:

Instead of just focusing on memorization (like multiplication tables), encourage your child to understand why a math concept works the way it does. For example, instead of just teaching multiplication as "just memorizing numbers," explain that multiplication is repeated addition. This deeper understanding helps children apply math concepts more effectively in various situations.

5. Stay Positive and Patient:

Math can be challenging for many students, so it's important to create a positive attitude toward learning. Celebrate small successes and provide encouragement when they struggle. A growth mindset—where students understand that effort leads to improvement—can go a long way in making them resilient learners.

6. Ask for Help if Needed:

If your child is struggling, consider additional support, such as working with a tutor, using online math resources, or even reaching out to the teacher for extra help. It's important to address any gaps in understanding early on before they snowball into larger difficulties.

By focusing on building these core skills in grades 5 and 6, students will not only perform better on their current math assessments but also have a stronger foundation for future success in more advanced mathematics. Parents can play a crucial role by being supportive and proactive in ensuring that their child builds these skills effectively.

Dear Parents,

This month in Math 7, students have been working hard to build new skills and strengthen their understanding of key concepts. Below is a quick overview of what we've been learning in class:

- Students explored how quantities relate to one another through ratios, rates, and unit rates.
- They learned to identify and compare proportional and nonproportional relationships, both in tables and equations.
- They practiced solving proportions and applying them to real-world scenarios.

Why do these skills matter?

These skills are essential because they help students make sense of real-world relationships—like comparing prices, understanding speed, or adjusting recipes. A strong grasp of ratios and proportions also lays the foundation for more advanced topics in algebra and science. By learning how quantities relate, students become more confident problem solvers and critical thinkers

These foundational skills are essential for developing strong mathematical reasoning and problem-solving strategies.

Thank you,

Mr. Matthew

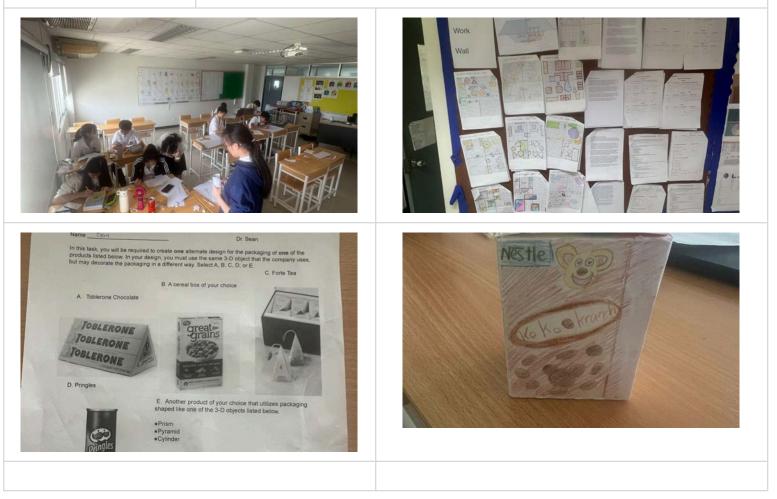

Dear Parents,

This month in the Pre-Algebra grade 7-8 math classroom, we finished up a unit on transformations. Students created and designed floor plans as the final summative assessment for quarter 3! In quarter 4, we have been working on 2D shapes, specifically circles, triangles and quadrilaterals as well as 3D shapes, specifically prisms, cylinders, cones, pyramids and spheres. Students have had to find the area and perimeter of 2D shapes and the area and circumference of circles as well as the volume and surface area of 3D figures. We have also completed a project where students had to construct 3D solids as an advertised product. We will be reviewing these concepts after the Songkran break and move into radical expressions and operations as well as the Pythagorean Theorem in the month of May. I hope you all have a great Songkran break!!

All the best,

Dr. Sean

SCIENCE

Ms. Haley | Grade 5-6 & ELL Science 7-8

Dear Parents,

Our middle school students have been boldly going where no class has gone before! Over the past few weeks, students have been busy exploring the mysteries of space in an exciting science unit that launched them on an imaginary mission across the universe.

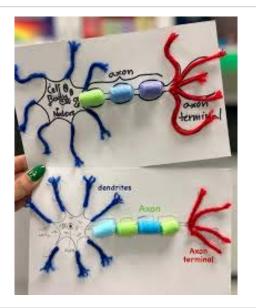

Each student group created their own unique space mission—choosing to explore planets, stars, and even distant exoplanets beyond our solar system. As they planned their journeys, students learned about the real tools that scientists and astronauts use to study space, including rovers, satellites, space telescopes, and

other high-tech equipment. They discovered how NASA's rovers like Curiosity and Perseverance explore the Martian surface and how satellites orbit Earth to help us understand our own planet from space.

But the learning didn't stop there! Students brought their knowledge to life by building creative models of the solar system, showing the positions and characteristics of each planet. These models helped them visualize just how vast our solar neighborhood is—and just how tiny Earth is in the grand scale of the universe!

To wrap up the unit, students presented their space missions to the class, sharing exciting details about their destinations, what they hoped to discover, and how they would survive and explore in space. It was inspiring to see such imaginative thinking and scientific curiosity on display!

Meanwhile, another class has been diving deep into the human body, learning how our internal systems work together to keep us alive and healthy. Students explored the circulatory, respiratory, digestive, and nervous systems, then worked in teams to build detailed models of each system using creative materials. Just like their space-faring classmates, they ended their unit with presentations, proudly sharing how the body functions and what happens when different systems work together. Future doctors and biologists in the making!

<section-header><image><image><image><image><section-header><section-header><section-header>

Dear Parents and Guardians,

I hope this update finds you well! Our science classes have been buzzing with exciting hands-on learning across all grade levels. Here's what your students have been exploring:

ELL Science: Physics & Mechanics

Students have begun exploring the fascinating world of mechanics and physics after completing the Q3 unit on chemistry. Through hands-on activities, they're investigating fundamental concepts like force, velocity, and speed. We're implementing new vocabulary strategies to better equip students with the scientific terminology they'll need for future learning. I'm encouraging students who are struggling with science vocabulary to create flashcards of key terms to support their learning. Students are also working with basic mathematical equations that describe how objects move and interact in our universe.

Genetics & Heredity (7th Grade)

Our 7th graders are diving into genetics and heredity! They're learning how characteristics are passed down through generations and the benefits of genetic diversity. One highlight of this unit is our "Make Your Own Dragon" genetics project, where students apply Mendelian inheritance principles to create unique dragon offspring with inherited traits. This creative approach helps make complex genetic concepts more accessible and engaging.

Students also conducted an exciting hands-on experiment where they extracted DNA from bananas. This lab provided a tangible connection to our discussions about why genetic diversity is important, particularly in the context of real-world challenges like those facing the Cavendish banana variety.

Earlier in this unit, students completed lessons on taxonomy and living systems, exploring both plants and animals. After the Songkran break, we'll be advancing to our final unit on waves/light and engineering to complete the year's learning journey.

Chemistry (8th Grade)

In 8th grade, students are exploring chemical reactions through numerous hands-on laboratory experiments. They're investigating how substances interact, observing changes that indicate chemical reactions, and learning that chemical equations are balanced.

Students are engaging with familiar experiments, such as adding vinegar to baking soda, but with a deeper focus on scientific principles including prior knowledge, hypothesis formation, creation of new substances, and conservation of matter. These classic demonstrations become powerful learning tools as students develop a more sophisticated understanding of the underlying chemical processes.

A highlight of this unit was our cookie making lab where students explored the concept of controls and variables in scientific experiments. Building on this experience, students will soon participate in a self-directed cookie making experiment where they'll apply what they've learned to improve upon the original recipe. This engaging activity reinforces key scientific principles while developing critical thinking and experimental design skills.

Supporting Vocabulary Development at Home

At the beginning of each unit, we provide students with a list of key science vocabulary terms they will encounter. Many of our second and third language learners find science terminology particularly challenging. The most effective way parents can support their children's science learning at home is by helping them create and practice with vocabulary flashcards.

As always, please reach out if you have any questions about your child's progress in science class.

Best regards, Teacher Anne

SOCIAL STUDIES

Mr. Andrew | Grade 7-8

Dear Parents,

Happy April! It is so hard to believe that we are already in the fourth quarter of this school year. Time really does fly! Songkran is my favorite time of year in Thailand so I am happy that it has finally arrived. We will be beginning new units in both MS Social Studies classes and we still have a lot to learn this year. It is important that the students remain focused and working hard right until the end of the year. I hope you all have a wonderful Songkran Break and a great rest of the month of April!

In Social Studies 7, we are finishing our Ancient Greece unit and will be taking the test on this the week we return from break. The students have a study guide which outlines all of the things they need to know for the test. This study guide is similar to ones I have given out for previous units so it should not be a surprise to the students. I would advise everyone to be completing this study guide using the posted slides and reviewing it to be fully prepared for the test. When we are finished with our Ancient Greece unit, we will be moving on to our unit on Ancient Rome. It is really great to see how much the students have learned so far this year!

In Social Studies 8, we have finished our brief unit about the American Civil War. The students really enjoyed learning about this period in American history. For those who don't know, one of the main reasons for the American Civil War was the issue of slavery ane the rights of the states compared to the federal government. This conflict is a bit difficult to understand, as slavery seems like a thing of the past, but the students did a really great job overall. When we return from break, we will be beginning our unit on World War I. This is a big turning point in the class, as the conflicts start to be a bit more real for the students as we move closer to the modern day. I look forward to seeing the learning that will take place.

As always, if you ever have any questions please do not hesitate to contact me via email (andrew.brenzel@tcis.ac.th) at any time and I will do my best to respond as soon as possible. I am here to help and I am dedicated to ensuring that all students are deepening their understanding of social studies concepts during their time in my class. I hope you all have a wonderful rest of the month of April and a happy Songkran!

Sincerely,

Mr. Andrew Brenzel

CHINESE

Mr. Mateo | CFB Grades 5-8 & CRW Grade 6B

Dear Parents,

Solution with nature and everyday life.

Coming up on May 1st, G6 CMT will have an online cultural exchange with Taipei Municipal Rixin Elementary School. This time, our students will proudly introduce local Thai cuisine, sharing the unique flavors and cultural stories behind the famous dishes.

* CFB 6-8 - Learning Chinese through Life CFB students recently completed the TOCFL Chinese Proficiency Test and achieved great results – congratulations to all for your hard work!

To put their learning into practice, students created a mini project introducing their daily routines in Chinese. They typed in Chinese and used Canva or Google Slides to present their typical day using time-related vocabulary and sentence patterns.

Right now, students are preparing for the promotion exam at the end of May. Each grade level is exploring different engaging themes:

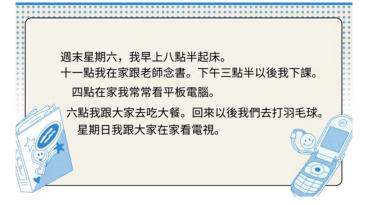

CFB6: "Healthy Food," "The 12 Zodiac Animals," and "Talent Classes in Chinese School"

CFB7: "Pop Music," "Don't Waste Food," and "At the Department Store"

CFB8: "The Fun of Chinese Characters," "The National Palace Museum," and "The Lantern Festival"

We're proud of our students' progress and look forward to seeing their growth in the weeks to come!

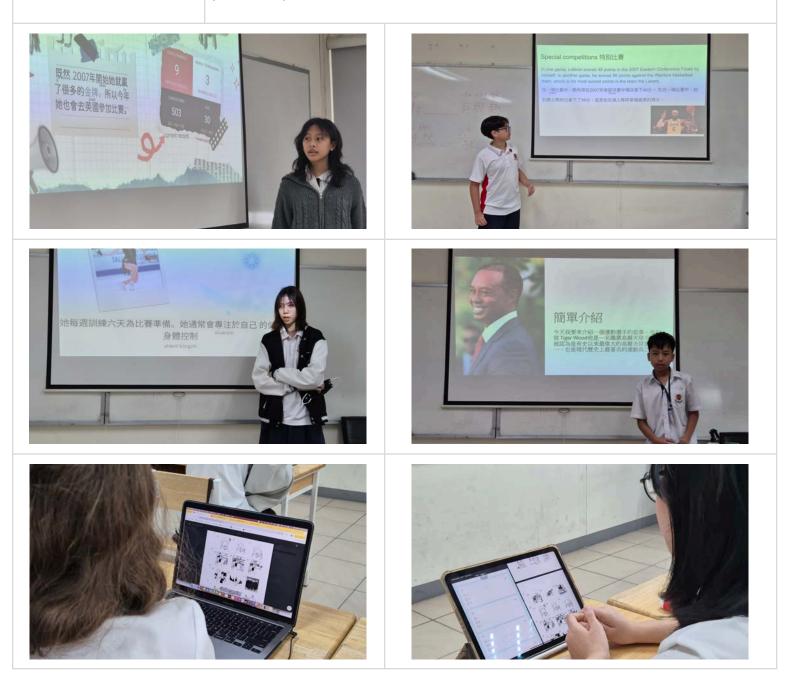

Ms. Jamie | CFT Grade 8

Dear Parents,

In our 8th-grade CFT8 Level 1 class, students worked on introducing their favorite athletes while learning about the triathlon (鐵人三項). Each student chose a different athlete from various sports and gave a presentation. Their performance was impressive, showing confidence and flexibility in using the Chinese language. In addition, we also practiced listening and reading sections of the TOCFL (Test of Chinese as a Foreign Language) during class. Through these exercises, we hope to help students achieve good results in the official Chinese proficiency test.

Mr. Thomas | CMT Grade 5 & Grade 7-8, CRW Grade 5 & Grade 7-8

Dear Parents,

Happy Songkran Holiday! Quarter 4 is a season of gratitude, reminding us that the academic year is drawing to a close.

We recently concluded the TOCFL test, and in the upcoming two months of learning, we will be embarking on our final unit of study. In Reading and Writing class, we are currently engaged in a small group reading task. Our goal is for each student to read two books this semester through collaborative support within their groups.

Regarding the Mother Tongue classes, the G8 is currently studying the narrative unit and is learning the classic poem, "木蘭詩The Poem of Mulan." The seventh grade is exploring the theme of family affection with the deeply moving essay, "背影The View of Father's Back." The fifth grade has just completed the topic of interpersonal

relationships, and the children have gained a deeper understanding of how to interact with classmates and members of the opposite sex.

We look forward to the rich learning outcomes of our children in Quarter 4. Happy Songkran Season.

蕭老師

Mr. Vicky | CMT Grade 8, CRW 8, CFT 8

Dear Parents,

Time flies, and April is already halfway through! Our students have continued to make great progress in their Chinese learning. This month, we've combined rich cultural experiences with language development, helping students connect Chinese with real-life contexts in meaningful ways. Here's a quick look at what each class has been working on:

Grade 8 CMT

We have moved into Lesson 5, The Ballad of Mulan, exploring the differences between Yuefu poetry and other classical Chinese poems. In addition, students participated in a hands-on cultural experience by wrapping spring rolls (runbing) to celebrate the Cold Food Festival and Tomb-Sweeping Day. After the activity, they reflected on their experience in short written responses (which you can view on our <u>Padlet</u>), and even recorded a 1-minute cultural introduction video for their classmates in the CFT class.

Grade 8 CFT Class

Students recently completed the TOCFL Chinese proficiency test, and many showed noticeable improvement in their reading scores—a great reflection of their dedication and hard work in class!

This month, we also began our final unit: Online Shopping. Students explored different e-commerce platforms, wrote a short introduction, and shared their experiences with online shopping. Through this typing assignment, they expand their vocabulary and gain a deeper understanding of relevant grammar structures.

Thank you for your continued support in your child's language journey. Wishing you and your family a joyful and refreshing Songkran Festival!

Warm regards, Ms. Vicky Huang

陳婷婷

泰國有許多著名網路購物平台,比方說 Lazada、Shopee、eBay、Amazon等等。 我最常使用的平台是 Lazada, 這平台可以買五花八門的東西,比如鞋子、外套、還 可以買家具,又方便又快速。 由於家裡的桌子壞掉了,我們可以買新的桌子在 Lazada上,所以我最近一次在網路購物平台上買了,我覺得Lazada是一個既已用 ,又高校的網路購物平台,因為賣得東西很便宜,品質也特別好,所以很多人都在 上面買東西。

高智敏

泰國有許多著名的網路購物平台,比方說 Shopee,Lazada,Tiktok,Facebook等 等。我最常使用的平台是 Shopee,這個平 台可以買五花八門的東西,比如買衣服,買 食物,還可以買食品應有盡有。由於我覺得 網路上的衣服很漂亮,所以我最近一次在這 個網路購物平台上買的是裙子,我覺得 Shopee 是一個很方便的網路購物平台,因 為有很多折扣,也有五花八門的東西可以買 ,所以很多人都在上面買東西。

余少帆

泰國有許多著名網路購物平台,比方說 shopee、Tiktok 、Lazada、Grab 等 等。我最常使用的平台是 Tiktok ,這 個平台可以買五花八門的東西,比如衣 服、食物、日用品,還可以買化妝品 應有盡有。由於我想買東西,所以我最 近一次在這個網路購物平台上買的是白 色的網衫,我覺得 Tiktok 是一個很便宜 的網路購物平台,因為有打折,所以很 多人都在上面買東西。

陳霏

泰國有許多著名網路購物平台,比方說 shopee、lazada、tiktok、shein、 instragram、grab、temu等等。我最常使用的平台是,這個平台可以買五花八門的 東西比如衣服、裙子、鞋子、零食還可以買日用品應有盡有。由於我喜歡買衣服網 路上的 衣服也很漂亮,所以我最近一次在這個網路購物平台上買的是衣服、裙子、 褲子。我覺得tiktok 和lazada 都是划算網路購物平台,因為滿千折百和滿千免運的 活動所以很多人喜歡。

THAI

Kru Koong/ Kru Aom/ Kru Aim | Thai FT/MT 5-8

Dear Parents,

We are very excited to update you with news in Thai class. Since Songkran celebration is coming, MS Thai teachers encourage the students to learn about Thai culture by making Elephant Mesh Page (ตาข่ายหน้าข้าง).

By creating an elephant mesh page, they learned that elephants are not just animals but an important cultural symbol in Thailand. They gained knowledge about their meaning in Thai history, art, traditional Thai patterns and styles. They also learned to apply Thai traditional patterns and respect for nature into the design, showing the beauty of Thai culture through handcraft art.

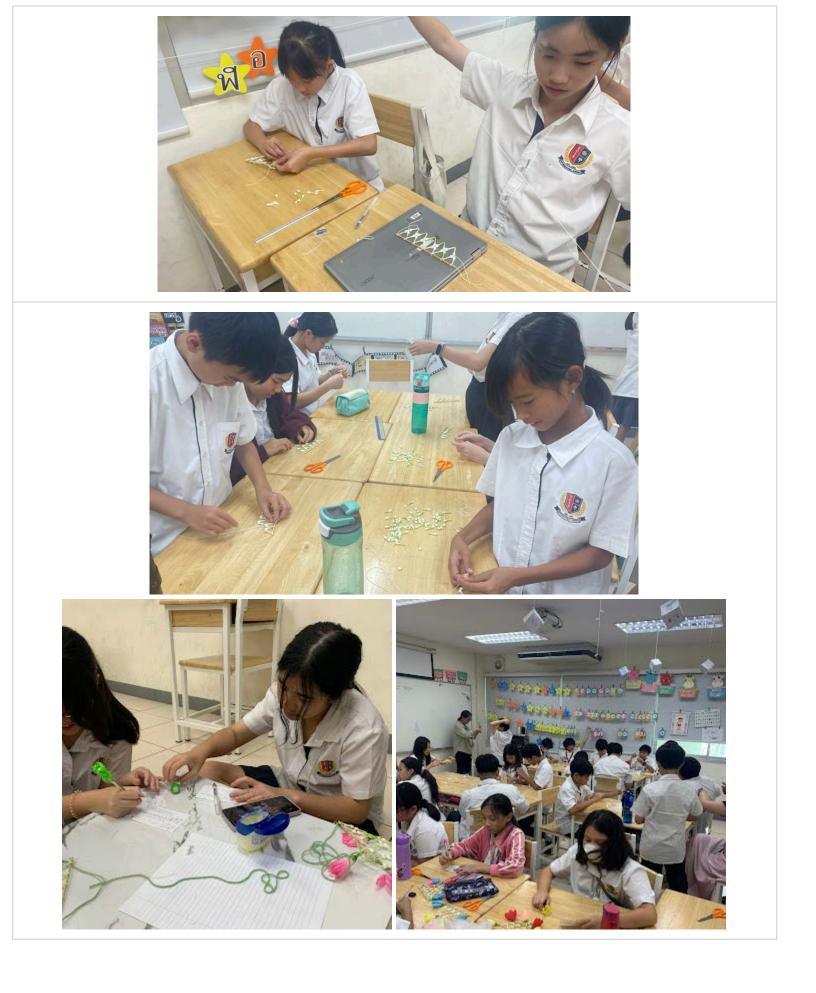

Thank you for all your support and we are looking forward to updating the news soon.

Happy Thai New Year, Sawaddee Pee Mai Thai kha, สวัสดีปีใหม่ไทยค่ะ 💦

ELECTIVES

Ms. Cream | Art Grades 5-7

Dear Parents,

Grade 5 & 6 students collaborated in a group art project that encouraged imagination and creativity under the themes "Under the Sea" and "The Universe." Through this group work, students learned how to plan together, create art as a team, and develop leadership and teamwork skills by practicing being both leaders and supportive team members.

They used poster paints and oil pastels to bring their ideas to life, focusing on realistic lighting and shading techniques to add depth and dimension to their artwork.

Once the creative process was complete, students revisited their pieces, presented their group's work to the class, and participated in a group critique session—sharing feedback, analyzing, and appreciating each other's efforts and creativity.

Preme and Gatchan G.6

Jinn and Andrew G.6

Vin, Win Win and Ongsa G.6

Ariel, Tanya, Huei, and Emily G.6

PJ, Pandin, Singto, and Fang Fang G.5

Mugo, Thann, and Chi G.5

Na-Aoey and Margie G.5

Coco, Chen Chen, Irena, and Morning

Ms. Elizabeth | Art Grade 8

Dear Parents,

Art 8 students have completed their delightful acrylic, candy-inspired paintings. They created original still life compositions from observation, carefully making numerous design decisions to achieve balance, depth, movement, and viewer engagement. Throughout the process, students learned a variety of new techniques that significantly enhanced their skill set.

You can currently find their amazing work on display in the MS Building on the 2nd, 3rd, and 6th floors. Be sure to stop by and enjoy these impressive original compositions created by our talented Grade 8 artists! Here are some samples below.

Artwork top row left to right: Alice and Ing Ing. Artwork bottom row left to right: Yim and Plaeng

Students clockwise: Namo, Alice, Leo, Charlene and Bonus.

Art 8 students are currently exploring assemblage art through the work of various artists, including Louise Nevelson. They began by studying examples of assemblage art and thoughtfully explored composition possibilities through preliminary drawings in their sketchbooks. After selecting the composition they were most interested in developing, students reviewed important safety procedures for using canary cutters and scissors on cardboard.

They also learned techniques for creating texture on this versatile, recycled medium. This exciting, sustainability-focused project will continue after Songkran.

Dr. Li-Chou | Strings Grades 7-8

Dear Parents and Students

On April 4th, our Middle School and High School Strings and Choir students performed in the 360 Hall. A total of 57 students participated in four groups: 7th Grade Strings, 8th Grade Strings, High School Choir, and High School Strings.

Thank you to all the parents who came to support us. We're happy to share the concert videos with you below.

G7 String Class: Roy, Rainie, Angel, Alice, Ethan, Mungkorn, Peter and Marvyn.

<u>G8 String Class: Gawin, Jina, Jasmine, Pippo, Guy, Tiger, DerDer, Tony, Yui and Jack</u>

The entire concert video: G7 Strings, G8 Strings, HS Choir and HS Strings

Grade 8

Throughout the month of March, students explored various types of robotic arms. They began by converting the 4-bar arm on their EXP Clawbot to a 6-bar arm, analyzing the similarities and differences between the two designs. Following that, they constructed both swing arms and chain arms, investigating the mechanics and identifying scenarios where each type would be most effective.

To conclude the unit, students completed a summative assessment where they were presented with different real-world scenarios and asked to justify which type of robotic arm would be the most suitable and why. This activity encouraged critical thinking and reinforced their understanding of mechanical design and application.

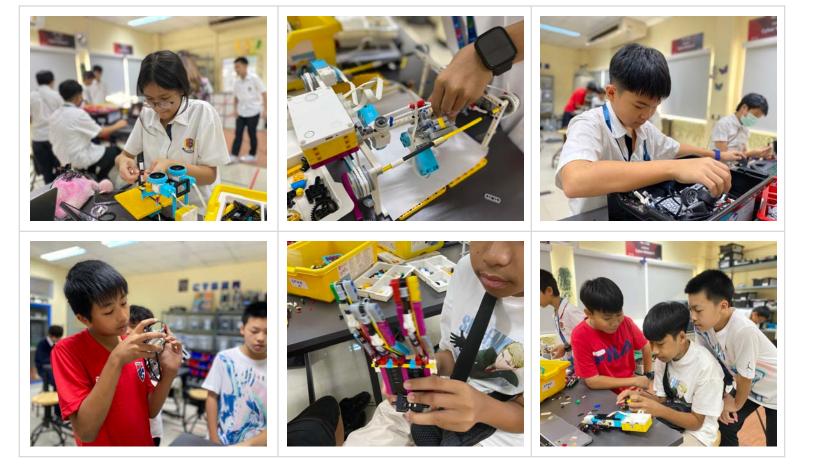

Grade 7

On March 18, the Grade 7 Robotics class held their Creative Robots Showcase. The students did an outstanding job presenting their robots to a variety of audiences and encouraging them to interact with their creations. A video of the showcase is shared <u>here</u>.

In the final week of March and into early April, students took on the challenge of designing and building more complex robots. Their innovative ideas included drawing tools, printers, various types of prosthetic arms, grabbers, interactive games, and even a rock-and-roll penguin! It was exciting to see their creativity and engineering skills come to life in such unique ways.

Personal Data Protection Act (PDPA)

The Thailand Personal Data Protection Act (PDPA)

- The Personal Data Protection Act B.E. 2562 (2019) (PDPA) was published on 27 May 2019 in Thailand's Government Gazette. (English, Thai)
- The PDPA is under the supervision of the Ministry of Digital Economy and Society and the main supervising authority of the PDPA is the Office of Data Protection Committee (Office).
- School is the "Data Controller" means a person or juristic person having decision-making on the collection, use, or disclosure of personal information (PDPA Section 6).

Personal Data	Sensitive Data
Any information relating to a natural person, which enables the identification of such person, whether directly or indirectly, but not including information of deceased persons.	 Any personal data pertaining to: racial or ethnic origin political opinions religious or philosophical beliefs sexual behavior criminal records health data, disability trade union information genetic data, biometric data, or any data which may affect the data subject in the same manner as to be prescribed by the PDPC.

In essence, the PDPA is designed to protect a data owner from the unauthorized or unlawful collection, use, or disclosure and processing of their personal data. As with Europe's GDPR, for example, websites will have to include simple and straightforward language, and receive clear consent from each user, before (or at the time of) collecting such data, using it in any way, or passing it along to third parties.

Another key aspect under the PDPA is the requirement to inform the data subject of

(i) how their personal data will be used by the data controller, (ii) whether personal data will be disclosed to a third party, and (iii) of the data subject's rights to their personal data. This must be done at the time the personal data is being collected from the data subject.

The rights of data owners under the PDPA include the following:

- Right to be informed
- Right to access
- Right to data portability
- Right to object
- Right to erasure/ right to be forgotten
- Right to restrict of processing
- Right to rectify

Even foreign entities will need to follow the rules spelled out in the PDPA, as long as they deal with any activities that are related to the processing of personal data such as offering of goods and services or monitoring of users' online behavior, from users who are based in Thailand.

There are both criminal and civil liabilities for breaches of personal data privacy. For instance, the collection, use or disclosure of sensitive personal data illegally is liable to a fine of five million baht on conviction. Collection, use or disclosure of general personal data without a legal basis is liable to a three million baht fine on conviction, and failing to get consent from data's owner or refusing the data's owner access to their personal data is liable to a one million baht fine on conviction.

If the unauthorized use or disclosure of personal data causes damage to other people or subjects other people to hate, shame or contempt, violators may face six months in prison and/or a fine of 500,000 baht on conviction.

Please see the school website for current <u>PDPA</u> information.

https://www.tcis.ac.th/pdpa

2024-25 Parent Student Handbook TCIS Yearbook 2023-24

Nurse: School Health Services

The Nurse Clinic is a spacious and well staffed facility at TCIS that can accommodate several students at any given time of the day. The Nurse Clinic is open daily from 7:00 a.m. to 4:00 p.m. The clinic is located on the ground floor next to the storeroom and staffed by a registered nurse and one nurse's aid. The clinic treats all minor injuries occurring at school. The athletics program has a school nurse who works until the sports games finish.

The clinic stays in touch with the Ministry of Public Health to keep abreast of health notifications. Current vaccination information is sent out to parents for their information and written consent. Students in grade 1 thru grade 6 may get some vaccinations from our nurse according to the Thai Ministry of Public Health. Records of previous vaccinations are kept on file with the school nurse.

A worldwide, comprehensive (24-hour) accident insurance coverage is provided for all students up to 60,000 baht yearly.
